### SUMMARY

Frontend Developer with Significant Experience in UI/UX and Web Application Design, I have worked with various organizations, ensuring a user-focused approach to my profession. Leveraging my expertise in modern frameworks and responsive design, I create intuitive, high-performing interfaces and deliver innovative digital solutions that align with business objectives.

### PROFESSIONAL EXPERIENCE

#### Sirovista

Jan 2023 - Oct 2025

Built and maintained critical components used to construct the company's frontend architecture. Collaborated closely with designers and product teams to translate Figma designs into pixel-perfect, responsive interfaces with best web accessibility practices.

#### Freelance Frontend Developer (Remote)

Jun 2021 - Jan 2023

- Developed responsive websites and web applications using HTML, CSS, JavaScript, and React.
- Built frontend layouts and components based on client requirements, and reusable code.
- Customized existing websites and improved UI/UX for better engagement.

### PROJECTS

#### E-Commerce Clothing Store | React.js, Bootstrap

● This project was developed for an online clothing brand, allowing users to browse, filter, and search for products. The cart functionality enables adding and removing items. A search bar helps users quickly find any product. The website is fully responsive and optimized for fast performance.

#### Netflix Frontend Clone | React.js, Tailwind CSS

● Developed a Netflix-inspired frontend web application with an interactive UI. Integrated movie browsing, search functionality, and responsive design for a seamless user experience. Optimized performance for smooth navigation and fast loading.
